

ADSB manages all their engineering drawings across multiple locations across the globe using ViciDocs.....

Vicisoft Implemented ViciDocs Enterprise along with workflow through a partner in the Middle East.

Abu Dhabi Ship Building (ADSB), a world class ship builder, specializes in the construction, repair and refit of Naval, Military and Commercial vessels at their Abu Dhabi located ship yard.

Issues

- ❖ Large Number of Drawings to be archived and retrieved
- ❖ Multiple Document Formats including Paper Documents!
- ❖ High Performance requirements even at high volumes
- ❖ Reusability of existing hardware infrastructure to keep costs low
- ❖ Quick Retrieval of Documents based on any word in the document

Solution

ViciDocs Enterprise, with its scalable architecture and Workflow component was implemented in ADSB.

Benefits

- ❖ Single, Central Repository for various types of documents in a multi-user environment.
- ❖ Full Text Search as well as metadata search.
- ❖ Elaborate Security and workflow mapping.
- ❖ Reusability of documents created in the past.

ViciDocs Advantage.....

- ❖ Create Centralized Repository
- ❖ Quicker Access to Documents
- ❖ Browser based Access for Search & Retrieval
- ❖ Comprehensive Security
- ❖ Improves efficiency & Productivity
- ❖ Folder Hierarchy Creation
- ❖ Version Control to ensure integrity and history of the document
- ❖ Indexing
- ❖ Content & Metadata based search options for document retrieval
- ❖ Web enabled application
- ❖ User-friendly and User intuitive interface
- ❖ Back up & Restore mechanism
- ❖ Audit Trials
- ❖ Compatible with any ODBC compliant database
- ❖ Automatic routing of documents to users
- ❖ Drag and drop based Graphic workflow designer allowing the creation of complex business process within minutes.
- ❖ Documents as well as status of the process is accessible easily
- ❖ Supports adhoc routing
- ❖ Annotation Support
- ❖ Define Escalation rules
- ❖ Notifications to the participants
- ❖ Generate reports based on Job Initiator, Item status, Initiator, Participator and Items escalated
- ❖ Generate elaborative reports.
